JUGGLING JAMBOREE

An enjoyable, gently challenging session suitable for any event. See a different side to your colleagues! Following a demonstration by professional circus performers, your guests will break down barriers and discover new skills, in a fun, learning environment where failure is not feared. Guests will be led through the techniques of successful juggling skills – starting off slow with basic 3 ball patterns such as the 'Shower' pattern, progressing to 'Cascade' and perhaps even 'Fountain' depending on the time frame and confidence of the group.

DURATION 30 MINS
GUEST NO'S UNLIMITED

HUMAN BINGO

Human Bingo is a twist on the original and a great game for getting people to interact and get to know each other! A bingo card will be created on which boxes will list certain interesting things a person may or may not have done, such as "Has run a marathon" and "Can say hello in 3 languages and demonstrate!" Each guest will be given a copy of the card and then asked to find people in a group who has done each thing. If a guest being asked has done that activity, they sign their name to that box.

DURATION 10-30 MINS
GUEST NO'S 5-500

BEAT BOX

A form of vocal percussion involving the art of mimicking drumbeats, beat boxing is a super fun and original way to get all your guests energised and jamming to the same tune! No musical ability or previous experience is necessary as this event is presented in a fun visual way. Your guests will be amazed by the range of different sounds, beats and music they will be able to make together using only their mouth, lips, and voice. A high energy memorable experience, you'll never look at pictures of boots or cats in the same way again!

DURATION 10-30 MINS

WHEEL OF FORTUNE

Working equally well during your daytime agenda or evening dinner, this runs as a team-based competitive format where members of the teams are invited to take it in turn to come to the stage and spin the wheel. Questions from that colour category flash up on the big screen – allowing all teams to buzz in using our slammer handsets and try to answer correctly. Get it right and you win points for your team but get it wrong and all the other teams' slammers are turned back on until someone finds the right answer!

THE BOX

A large box containing a digital keypad and an ominous looking biohazard canister has been deposited in your conference room... it must be unlocked and removed for forensic testing. On the main screen a digital clock remains frozen at 60:00 minutes...but once the teams are briefed, the clock springs into life and the countdown begins. This is a fast and furious challenge as each team goes all out to successfully decode the master cryptic message to gain the means to open the box.

GPS TREASURE QUEST

Not just a Treasure Hunt but an integrated event using latest technology, tablets and GPS tracking to create a team event which is engaging, has something for everybody and draws upon your individual quests' inquisitiveness, creativity and skills.

The GPS Quest works by setting you a series of 'hotspots' on your tablet and it is not until you navigate to each individual hotspot that your instructions appear on your tablet – we always seek to maximise the potential of your location and so you may have to find the answer to a question about the hotspot vicinity or notable landmark.

Add to that the bonus challenges set and the team will have lots of opportunities to use their wits to triumph!

Careful planning is essential to maximise your team's score as not every hotspot has the same outcome – and the game is on to outperform the competition and earn the highest score possible.

THE ROYAL HEIST

URGENTLY NEEDED: A team of consulting detectives with the sleuthing skills of Sherlock Holmes to assist in recovering some stolen valuables – one's Crown Jewels no less! Intelligence from Scotland Yard has revealed that the thieves have hidden these Royal valuables with the intention of selling them on the black market – we need to recover them and fast.

Each question correctly answered will earn the team points towards discovering the whereabouts of the stolen jewels. In addition, each team's GPS tablet will alert them to hidden challenges along the way which help them to piece together the identity of the thieves and the location of the Royal rarities.

With the local area carefully examined, teams head back to H.Q. for an agreed rendezvous where each team views the CCTV tapes released of the heist for further clues and testing of their observational skills! When the time is up, we will discover Cluedo style which team has investigative abilities to rival Sherlock Holmes and has correctly identified where the Crown Jewels are concealed. In a finale reveal teams will see the Scotland Yard team attempt to recover and return the jewels to a grateful monarch!
